

Overall Leadership Team Responsibilities

Here are three sample descriptions of the role of a church's central missions leadership team. We recommend that you review all three, circling sections you like best from each document and creating one of your own that fits your unique situation.

1. [Global Outreach Team Job Description](#)

This description begins with a strong vision statement, then includes a summary of tasks in outline form.

2. [Global Outreach \(GO\) Team Job Description](#)

This description covers not only the team responsibilities but selection, accountability, individual responsibilities and qualifications. There is some great motivational language in this sample too.

3. [GO Team Job Description](#)

This description includes more nuts-and-bolts- description of the tasks that the GO Team is responsible for. Even if you choose not to include this amount of detail in your job description, a customized version of this type of list can clarify the flow of various processes up and down the organizational chart.

Organizational Charts and other job descriptions can be found here:
